

Statute

#	Statutes to Consider	Comment
1	Budget laws: Submission deadlines (17-7-112); Operating Budget (17-7-138); Preparation of building programs and submission to DOA (17-7-202)	Evaluation of each budget law to determine how it would be adjusted
2	Budget law dates	If January schedule then not a lot of changes
3	Legislative Session Schedule, Organization and Compensation: Title 5, chapter 2, parts 2 and 3	Would session be shorter, would compensation need to be adjusted?
4	Interim Committees: Title 5, chapter 5, part 2	How would interim committees be impacted? Would interim be longer, would compensation be adjusted, would standing committees be allowed to meet? Would they exist at all?
5	Create temporary statute for one annual budget and revenue estimate	Detailed decisions on exact application of budget law would need to occur
		How would audit schedules be impacted?
		How would biennial statutory appropriations be impacted?
6	Budget Amendment and supplemental law may change: Title 17 chapter 7, parts 2 and 3	If the legislature meets briefly every year, there would be an opportunity to annually adjust budgets through budget amendments and supplemental in bill form instead of authorizing the executive to proceed without the legislature as allowed now.
7	Session Publications Laws: Title 5, chapter 11, part 2	Dependent on schedule, publication of laws, session laws and related publications may be affected.
